Problem / Solution

PROBLEM

BET OPERATORS

Constantly struggle to attract Bet Beginners, and on a more Cost-effective Basis

AFFILIATES

Affiliates desire new, innovative, cost-effective ways to deliver more of, and, better Bet Beginners to Bet Operators

SOLUTION

TURNOVER GLOBAL Inc.

We create innovative, sports-based, non-real money games to help Affiliates attract more of, and, the best Bet Beginners

Who is Turnover Global?

TURNOVER GLOBAL creates and uses AI-enabled Sports Simulation Engines to produce innovative, sports-based, non-real money bet products to improve the performance of Affiliate-based traffic engines

Our non-real money games are built specifically to attract the best Bet Beginners

All of our games are built under our unique BET ‘n’ COACH ™ brand

What are BET ‘n’ COACH Products

We build products that help Affiliates provide Free Training to attract Bet Beginners (and not by more & more expensive ad-based offers)

Our products help to both teach specific sports and also teach how-to-bet on specific sports, all available as a way of increasing Affiliate traffic

Our products all include in-game ‘Coaching Input’ for sports teaching purposes

Our products all provide for ‘Positive Betting’ only, for bet learning integrity

Current Products & Sample

vAPF ™ Virtual American Pro Football

We currently have two BET ‘n’ COACH products, with three others in R&D

- vAPF™ Virtual American Pro Football
- vACF™ Virtual American College Football
- vPB™ Virtual Pro Baseball
- vCPH™ Virtual Canadian Pro Hockey
- v1DC™ Virtual One-Day Cricket

‘Positive Betting’ only

- Money Line, on the team the player is coaching
- Spread Over, on the team the player is coaching
- Team Total Over, on the team the player is coaching

vAPF ™ Virtual American Pro Football

- Offense: 1-5 Team Capabilities
- Défense: 1-5 Team Capabilities
- Sp/Teams: 1-5 Team Capabilities
  = 5 x 5 x 5 = 125 Different Teams

Note: We have run >15B sims for vAPF™.

How We Do It ?

We have developed a Technology Platform that produces unique *Sports Simulation Engines*.

Creating the perfect learning platform for Bet Beginners!

The Technology Platform identifies & simulates the Core-Essence of any sport via Trial & Error based R&D. Such as:

- 1 Series-of-Downs (football)l
- 1 At-Bat (baseball)
- 1 Cricket-Over (cricket)
- 1 Player-Possession (hockey)

A unique AI-Enabled Algorithm for every Core-Essence then creates a perfect Sports Simulation Engine for every sport.

How We Do It ?
(cont'd)

Our Sport Simulation Engines are the essential technology underlying our BET 'n' COACH Products.

Creating the perfect learning platform for Bet Beginners!

Each Sports Simulation Engine has:

- A variety of unique teams with distinct characteristics.
- Realistic game outcomes that accurately reflect the sport.

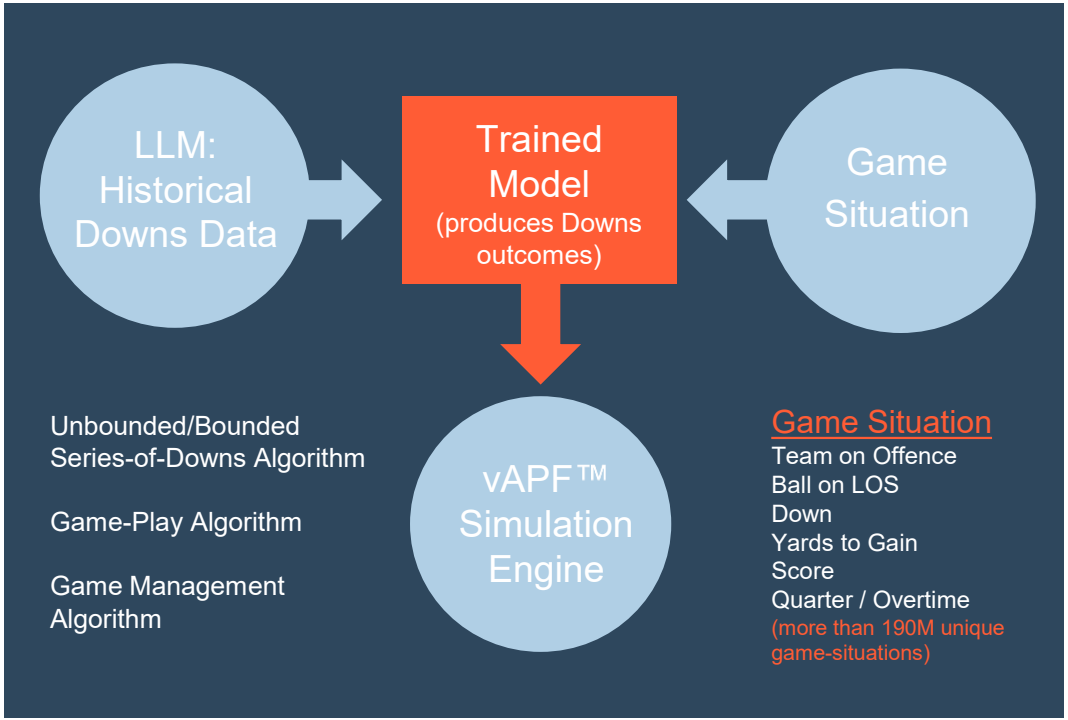
Each Engine is built on:

- Game-play algorithms that ensure fair randomness (RNG-compliant).
- Transparent game results, with full play-by-play breakdowns for accuracy and verification.
- Betting lines that align with industry-standard, return-to-player percentages (RTP%-compliant).

Why our Sports Simulation Engines Work (AI-enabled) (e.g., vAPF™)

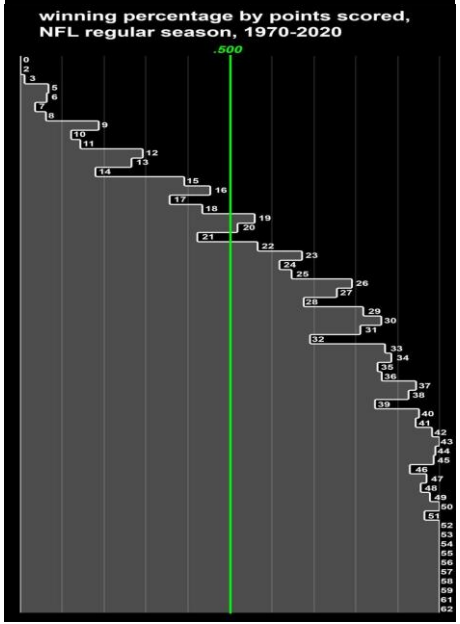
- We build Domain-based LLMs by Sport
- Example:
  LLM for American Pro Football
  - Core-Essence is 1 Series-of-Downs
  - Therefore, LLM is trained on historical results for:
    - 1st Down
    - 2nd Down
    - 3rd Down
    - 4th Down

  All indexed by 190+ million unique ***Game Situations***.



Why our Sports Simulation Engines Work (AI-enabled) (cont'd) (proof test example for American Pro Football & vAPF™)

Winning% for American Pro Football (50+ years)



Sports-Unique Mathematical Anomalies prove that our simulations work - Winning% is HIGHER FOR LOWER SCORES.

Our engines produce game outcomes in which the exact same anomaly occurs.
